THE EXPERIENCE

The successful rehabilitation of an orphaned rhino calf takes commitment, dedication, and above all, time. There are multiple stages within the journey, each phase is designed to heal, nurture, and prepare the growing calf for release back into the wild.

Your visit to the centre is a unique chance to be a small part of this incredible journey, the highlight of the activity is meeting some of the sanctuary's patients and helping with feeding.

Your tour ends with a video illustrating the Sanctuary's Mission, Purpose, and Vision for caring for and protecting rhinos.
