*Experience the thrill of close encounters
with five Majestic African Elephant...*

HAZYVIEW | MPUMALANGA

For those seeking an enjoyable meaningful experience, an elephant interaction at Elephant Whispers is a memorable and touching activity not to be missed. The mighty elephant is the world's largest living land animal, the mere sight of these impressive tusked creatures inspires awe and respect.

Visitors to the Centre experience life-changing moments when they encounter the elephants, and the Elephant Whispers Team works hard to translate this into an understanding of the need for long-term, sustainable wildlife conservation.
